Claims 1-3 and 8-10 are allowed.

Claims 1-3 and 8-10 are allowable since the prior art of record does not teach an image forming apparatus comprising internal wiring in the first attachment unit between the second upper-contact point and the third lower contact point is shifted so that a position of the first upper-contact point in the first upstream-side connector is identical to a position of the third upper-contact point in the second upstream-side connector in combination with other features and limitations of claims 1-3 and 8-10.
